Subject: Draft Comments regarding City of Eureka Ammonia Modeling Proposal
Attachments: 200505_RB comments on Evaluation of NH3 Toxicity.docx

Flag: Follow up

Hi Pascal:

I sure appreciated the discussion we had last month regarding the City of Eureka Ammonia Modeling proposal. I finally have the comments organized. I have attached them for your review and comment back to me if you have time. We had hoped to get these to the City by the end of April, but alas, I was juggling too many balls to meet that hoped for deadline. I am hoping to get comments out to the City by later this week or early next week.

If I have missed anything important in my comments, or misstated anything, please point those kinds of things out to me.

I know that you are very busy. Please let me know if you have time to look this over and the timing.

It is a pleasure working with you on this.

Cathy

The governor of California has issued a statewide shelter in place order due to the COVID-19 emergency. The Water Boards are continuing day-to-day work protecting public health, safety, and the environment. However, most staff are working remotely and we continue to check email and voicemail regularly. Thank you and stay healthy and safe.
